companies have a key role to play we aspire to do never settle for the status quo.

policy of the organization

an internship is a (deep) supervised experience directly related to an academic discipline. It typically lasts for one semester, and it must be planned and approved before it takes place with prior approval. Students may begin an internship at any time and enroll for credit in a following semester.

- * Schools of communications interns must write an internship experience report, which is required academic component.
- * Internship may be done in our college, and at the organization including other states.
- * A single work experience may not be used by a student to both internship credit and other forms or credit that is independent study credit.
- * This sector is the best example of creativity and technology as helps to growth of multimedia and Animations.
- * six credits is the maximum allowed to a single internship site.
- * work experience learns to help the Animations and graphics mainly editing the text, images etc.
- * Graphics, 3D images, movies are planned for the development.

organisation structures

- * multimedia means that computer information can be collected through audio, video and animation etc.
- * multimedia use text, images, graphics are major sources of the people.
- * multimedia needs large space to store information.
- * multimedia use to deliver information to user in digital form.
- * Animation is the process of designing, drawing making layouts and preparations of presentation, through animation we can move picture in motion. we can make video also.
- * Animations are created from a sequence of still images, each image is slightly changes from previous one.

Animation becomes very famous since 1950.

now a days there are 2D Animation movies and 3D Animations movies. Animations means putting life on non living things.

It structures data, organize and manage it using a tabular approach. It is also a hub to store large amount of data that is collected from multiple users.

This enables multimedia to load more than the available system RAM.

multiple users can Access this data for part it and easy received at any time.

Roles and Responsibilities of the employees in which the intern role?

- * An intern is a trainee who has signed on with an organization for a brief period. An intern's goal is to gain work experience occasionally some university credit and always an overall feel for the industry they are interning.
- * Refiling tasks set out by the supervisors from social department attending meeting and taking minutes performing research at a supervisors request updating social media platforms and writing copy for parts.
- * Responsibilities return to the tasks and duties of their particular role(s) job description employees are held accountable for completing several tasks in the work space the clearer their supervisor outlines the tasks.
- * The better employees can achieve their teams goals and succeed in their roles if at the company facilitate tasks for the sales Associates keep the stores looking clean and organized.
- * Every one must play their own role to improve their own skills.

Performance of the organization includes turnover, profits, markets reach and market values.

This measure calculates the company turnover rate, multimedia turnover refers to the phasing of the learners who left during the past years whether internship or job. The staff productivity measure is intended to help companies assess the efficiency of their staff related to the process of "multimedia and Animations". According to the company turnover may be low but, in visual fx, graphics are more profitable.

future plans of the organizations:

In this present world, all the students are interested in social media marketing like Facebook, Instagram, Youtube, etc. In this website Animations and graphics are highlighted.

So, everyone is interested in learning Animations. Visual fx and Animations, short films, movies, graphics, 3D and 2D images are planned for the development for a creative world, with various graphics and the effects.

CHAPTER 3: INTERNSHIP PART

Description of the Activities/Responsibilities in the Intern Organization during Internship, which shall include - details of working conditions, weekly work schedule, equipment used, and tasks performed. This part could end by reflecting on what kind of skills the intern acquired.

I have completed my internship work in "multimedia & Animations" organization. I have done my internship for about 6 months. I completed my internship work in my college. Our faculty guide is very supportive and cleared my doubts regarding internship. We also used our classrooms and labs to do our work. In photo shop we use our personal computers, laptops, and systems provided by our college. We completed the internship work on the photoshop knowing the new techniques for editing the text with different font styles, learning to create an attractive images, and videos etc. making logos removing the scratches in old images, size adjustments, adding new colors with different styles with the help of using layers, and the tools which are included in Adobe photoshop visual effects, 3D images, cutting an images etc. This internship helped me to acquire lot of skills. such as technical skills. managerial skills. job skills and communication skills etc. And maintaining the leadership is difficult but it is very useful to guide myself and guiding other with the help of all tools we can able to modify the images, videos etc.
